HEA-ICS Teaching, Learning and Assessment of Databases
TLAD 11

PROVISIONAL PROGRAMME

Monday 11 July 2011
University of Manchester

09.30   Registration

10.00 – 11.30 Paper Session 1: Data Mining
10.00   Teaching Oracle Data Miner Using Virtual Machine.
         Qicheng Yu, Preeti Patel (London Metropolitan University)
10.30   Data Mining Project: A critical element in Teaching Learning and assessment of a data
         mining module. Hongbo Du (University of Buckingham)
11.00   Making Data Warehousing Accessible.
         Tony Valsamidis (University of Greenwich)
11.20   Discussion

11.30 Coffee

11.50 – 12.50 Paper Session 2: Databases and the Cloud
11.50   The teaching of: Cloud Computing & Databases.
         Mark Dorling (Langley Grammar School)
12.20   Teaching Database for the Cloud.
         Clare Stanier (Staffordshire University)
12.40   Discussion

12.50 Lunch

13.30 – 15.10 Paper Session 3: Embedding Technology
13:30   Inquiry Based Learning Applications For Computing And Computing Forensic Students.
         Jackie Campbell, Sanela Lazarevski (Leeds Metropolitan University)
14.00   Using Web-Enabled Mobile Phones for Audience Participation In Database Lectures.
         Craig McCreath, Petra Leimich (University of Abertay Dundee)
14.30   Using Video to Provide Richer Feedback to Database Assessment.
         Howard Gould (Leeds Metropolitan University)
15.00   Discussion

15.10 – 15.30 Coffee

15.30 – 16.30 Panel Discussion: Assessment in Database Modules
*David Nelson (University of Sunderland), Al Monger (Southampton Solent University), tbc
(tbc)*

16.30 - 16.40 Discussion and Close
